Mines and Prospects -- Furnaces and

Mountain City District's Revival

Salt Lake Men Become Interested-Newhouse Properties in Flouring Condition.

J. G. Broacher of Mountain City, Ida., is in Salt Lake arranging for equipment and supplies, to be used in developing the Trophy group of claims, at Mountain City. The rix claims comprising the group are now owned by the Trophy Min-ing company, composed of Sait Lake mer interested in mining. The company has but recently been formed to develop the group of claims, which because of their present showing and their close proximity to the famous Greenback mine, now ur der bond to Samuel Newhouse, are ad judged by experts to promise quick development into shipping properties.

The officers of the new company are W

The officers of the new company are W. H. Dickson, president; Fred T. McGurrin, vice-president; G. M. Guich, secretary; Judge W. S. Snyder, treasurer, These, with A. J. Weber, constitute the Board of Directors.

Mr. Broacher will manage the development work and leaves shortly to superintend the sinking of a working shaft.

Each of the six claims in the group has many ledges running through it, the largest of which varies from two to eight feet in width. Samples at the grass notis run il ounces in silver and \$20 fgold. The principal voin extends over three claims. A mill will be creeked on the property next summer and as water and wood are plentiful, the cost of handling the cre will be reduced to a minum.

Mr. Broacher states that the famous old

Mr. Broacher states that the famous old camp, which has a production record of \$10,00,000, is active again. The Greenback, Kuntz and Mountain City mines, under bond to Mr. Newhouse, are in operation, and a new discovery, lying near the Mountain City, will soon be equipped for development. The best developed property is the Nebson, owned by Pittsburg people. A shift of twenty men has just been put to work on this property.

The Resurrection which has been closed down for three weeks, will resume operations in a few days.

The formation is a coarse-grained grantic and the ore is found in fault fissures. In the early soo the veins were worked by the ronating and pan amalgamation process. The expense of handling the ore was something like \$40 a ton, but great dividends were declared. The old-timers made the mistake of stopping work when fault occurred, in the belief that the veins had pinched out. This, combined with the drep in silver, closed up the camp, until modern methods of cameantration made it possible to handle the ore at a small.

cost.

The district comprises an area about two miles square. It lies 50 miles northeast of Tuscarora, on the belt extending into Silver City, Ida. In this district a dozen or more chutes of ore have been uneavered, from each of which has been taken values of from \$10,00 to \$250,000. California Hill alone has a record of \$1,500,000. The Trophy group lies in the center of this rich district.

RICH FIND AT GUANACEVI.

Morehouse of Mexico Con. Makes Roseate Report.

A message during the day from Frank Morehouse, superintendent of the proper-ties of the Mexico Consolidated Mine and Smelting company at Guanacevi, Mexico, tells of the presence of twenty inches of ore in the deitt north on the No 4 level which affords an average of 880c in sliver, with \$20 gold per ton, this in American coin. For no less than 755 feet the bedge has now been followed up on this level, while in November there were marketed ores taken out in the prosecution of development alone for which the management received as much as \$6,690. Mr. Morehouse, who is uniformly consorvative, is quite enthusiastic over the condition of the mines, and says of the undertaking that its future is now assured. Plans for the projected mill are now being compiled by engineers in this city, a site has been decided on, and active construction will positively begin in the spring. Local interests are all exultant over the outlook at the properties, and that it will be made one of the big Mexican producers they also have the assurance of a superintendent in whose integrity and whose adultity they have always reposed their confidence. Smelting company at Guanacevi, Mexico

AMERICAN FLAG SHIPMENT.

Settlement Made Yesterday-Big November Output.

The American Flag yesterday received the settlement price for 105 tons, included In the November output of the property The shipment settled for yesterday consisted of five carloads. It was settled for en a basis of 60 ounces silver, 35 gold and a fair per cent of copper and lead values. The total shipments from the property during November amounted to 167 tons, every pound of which was taken out in development work, and a good part of which ran \$30 to the ton.

The officials of the company are greatly pleased over this showing.

Capt. Singliser, president of the company, left yesterday for Montans, where he will stiny a few days, going from there to Sioux City, Ia., to spend the Christmas holidays with his family there. The shipment settled for yesterday con-

SILVER KING XMAS DIVIDEND.

Shareholders Will Receive \$100,000 as a Holiday Surprise.

At the last meeting of the directors of the Silver King an extra Christmas dividend of 65 2-3 cents a share, or \$100,000, was declared, payable December 21 to stockholders of record December 13. The news of the extra dividend was not offi-cially issued until yesterlay. It will swell the company's dividend record for the year to \$1,200,000, one of the handsomest dividends on record.

Work Delayed at Fish Springs.

Work Delayed at Fish Springs.

Superintendent Charles Crismon of Fish Springs is in from the mine for a few days. He states that through a defection in the working force it has been impossible to work the lower levels of the Galena, but two men are working on schall stringers of rich ore in the upper workings which will be shipped when a carload has been accumulated. The change of the Utah compressor to the Galena shaft has also been delayed. As soon as this change is made the pipe line will be taken down into the Galena shaft and thence into the Utah workings. The waste will be handled through the Galena shaft and the ore through the Utah.

TEA

Where tea and spirit are right, there is little danger of going-as ray in the business.

MARKET IMPROVES SLIGHTLY.

Prices Ruled Steady, and Small Advances Recorded.

Business on 'change showed a slight improvement yesterday over the provious day's business. Prices for the most part held stoady, on some stocks showing a slight advance. Silver Shield was in de-mand a. 11 cents. Toward the close of the afterneon session buying orders came block in the strength of East-block in the morning at 3342 During the afternoon small blocks of Daly changed hands at prices varying from \$2.46% to in for Daly West on the strength of East-

BUYS INTO GOLDFIELD

Salt Lake Capital to Develop Promising Claims.

B. P. Lloyd yesterday closed a deal for three claims in the heart of the Goldfield district, adjacent to the Black Buttes

district, adjacent to the Black Buttes
Mining company's holdings.
Mr. Lioyd will proceed at once to form
a company, with a capitalization of \$1,000,000, to work the property. Several prominent Salt Lake mining men are interested
in the project.
Word was received in the city yesterday stating that a big body of \$700 ore
has been uncovered in the Black Butte
extension at Goldfield. John T. Hodson
of this city is secretary of the company,
and Eastern parties make up the rest of
the directorate.

Boston Copper Market.

Boston Copper Market.

Special to The Tribune.

BOSTON, Mass, Dec. 7.—Our Boston market has tried very hard to foliow in the wake of the New York market and a great many stocks are on a much lower level tonight. The buying on the decline was considered good and should the New York market raily sharply our stocks are now in good shape to bave another upward swing. The tone was good throughout the day with conservative houses advising the purchase of the good cropers for a turn at least.

Hornblower & Weeks, brokers, M State street, Boston, and 10 Wall street, New York, furnish the following quotations:

BOSTON. Dec. 7.—More than 19,000 shares of Amaignmated copper were sold on the Hoston stock exchange before I o'clock today. The stock opened at \$75 and rapidly sold down to \$73. After a brief rally it touched \$70,570, a drop of \$75.370, since yesterday. Copper range, which opened at \$70.55. declined to below \$75, but recovered to \$77.375. United States Mining lost nearly three point at one time, Isle Royal. \$6, and other copper shares were weak. The market was one of the most minimated of the fall. The decline in Amaignmated was attributed partly to a campaign which has been carried on against it by a Boston broker

GATES BACKING LAWSON.

Spectacular Steel Operator Gives Out Sensational Bulletin.

BOSTON, Mass., Dec. 7.-It is undertood here that John W. Gates, the spec tacular steel operator, is backing the equally spectacular Thomas W. Lawson in the latter's campaign against Amaiga mated and the steel issues, the steel portion of which is only just begun. Lawson himself gives color to thus belief by bulletin today, in which he says:

bulletin today, in which he says:

"Late afternoon break on sales of 20,000 shares for Western man, who bought at 40. He has 20,000 left, which I will probably sell tomorrow. Sell your Amalgamated at best and don't purchase at any price until management changes under reorganization. No possibility of completion of Heinze settlement being spring. I will personally ask court for injunction on ground of fraud."

The street thinks that Lawson found

Bingham Con. Smelter Makes a New Record

Furnaces Drawn for the Record Weight in Presence of A. S. & R. Officials.

The management of the Bingham Con melter hoteled a new record on Tues day, when its furnaces were drawn up on for no less than 60,060 pounds of cop-per bullion, containing aliver and gold nor did its furnaces betray the slightest sign of distress. Among those present while this splendid achievement was be ing made were the visiting officials of the American Smelting and Refining company, for which the Bingham is handthese officials any doubt of the ability of its neighbor to discharge them the all vanished in the light of his performance. Indeed, the visitors were not a little autonished and many compilments were thrown at the feet of the management. There is yet much speculation locally as to the real extent of the alliance between the American and the Eingham Con. not a rew believing it to be much more significant than either has been willing to admit. There was a story that the former had acquired an interest in the latter, but this has been denied and in the absence of any other intelligence the public will termit that denial to stand unchallenged. It is not, however, desiled the right to think upon the subject. With the structural features of the Binghom as well as the superb work that is being done and results that are daily recorded, the visitors were very much pleased, and the management throughout is being congratulated.

Mining Notes.

C E Allen of the United States company The Pioneer sampler received yesterday two are of ere from Tintic and two from Ne-ada.

The regular annual meeting of the Sheba Gold and Silver Mining company is scheduled for December 12.

The Taylor & Brunton sampler reported to-day six cars of ore from Tonopals, five from linguam and three from Tails.

The new sampling plant of the Consolidated Mercur has gone into commission, and when a few trifling alterations are made will be ready for steady work.

A car of high-grade ore from the Humburg ground of the Unick Sam Con, was on the market yesterday, and two cars of concentrates are at the nampler.

President Daniel Guggenheim and his asso-ciate officers of the American Smelling in-Bofining company spent yesterday in impact-ing the smeller at Murray. General Manager C. W. Whitley accompanied the party. Directors of the Century Mining companion to the Control Mining companion by the levied an assessment of 4 cents a share levied in formal to the \$2,000 so secured with the used in figurating constanting incidences, and part will be used for development

For some time past dame fortehas frowned on me, forsouth, I bowed and kissed the hand of Day ter Miss Fortune My fiture lite mortgaged to satisfy hills, notes a judgments. To be brief, I am a pietely bankrupt, financially, mental and physically—and because the de-nable expert robbins Republican let-ers have knocked silver down and n noble patriotic Democratic states noble patriotic Democratic states have not knocked it up-so therein I must flee from these cursed has peaked mountains and wing my fly to the South Sea lales. Where to bread fruit ripens and dusky makes smile—and there take to my arm and tive virgin to raise me a dusky my the control mark my noverty. who cannot mock my poverty.

The above letter was received by us during the after days, 16 years a The writer paid the debt and has gone on. Many Park Cityltes will member him. He was a good fellow. We are still collecting had debts
